History.—s. 3, ch. 2017-107; s. 2, ch. 2017-110.

893.02 Definitions.—The following words and phrases as used in this chapter shall have the following meanings, unless the context otherwise requires:

- (1) “Administer” or “administration” means the direct application of a controlled substance, whether by injection, inhalation, ingestion, or any other means, to the body of a person or animal.
- (2) “Cannabinoid receptor agonist” means a chemical compound or substance that, according to scientific or medical research, study, testing, or analysis demonstrates the presence of binding activity at one or more of the CB1 or CB2 cell membrane receptors located within the human body.
- ¹(3) “Cannabis” means all parts of any plant of the genus *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin. The term does not include “marijuana,” as defined in s. 381.986, if manufactured, possessed, sold, purchased, delivered, distributed, or dispensed, in conformance with s. 381.986. The term does not include hemp as defined in s. 581.217 or industrial hemp as defined in s. 1004.4473.
- (4) “Controlled substance” means any substance named or described in Schedules I-V of s. 893.03. Laws controlling the manufacture, distribution, preparation, dispensing, or administration of such substances are drug abuse laws.
- (5) “Cultivating” means the preparation of any soil or hydroponic medium for the planting of a controlled substance or the tending and care or harvesting of a controlled substance.
- (6) “Deliver” or “delivery” means the actual, constructive, or attempted transfer from one person to another of a controlled substance, whether or not there is an agency relationship.
- (7) “Dispense” means the transfer of possession of one or more doses of a medicinal drug by a pharmacist or other licensed practitioner to the ultimate consumer thereof or to one who represents that it is his or her intention not to consume or use the same but to transfer the same to the ultimate consumer or user for consumption by the ultimate consumer or user.
- (8) “Distribute” means to deliver, other than by administering or dispensing, a controlled substance.
- (9) “Distributor” means a person who distributes.
- (10) “Department” means the Department of Health.
- (11) “Homologue” means a chemical compound in a series in which each compound differs by one or more repeating hydrocarbon functional group units at any single point within the compound.

(12) "Hospital" means an institution for the care and treatment of the sick and injured, licensed pursuant to the provisions of chapter 395 or owned or operated by the state or Federal Government.

(13) "Laboratory" means a laboratory approved by the Drug Enforcement Administration as proper to be entrusted with the custody of controlled substances for scientific, medical, or instructional purposes or to aid law enforcement officers and prosecuting attorneys in the enforcement of this chapter.

(14) "Listed chemical" means any precursor chemical or essential chemical named or described in s. 893.033.

(15)(a) "Manufacture" means the production, preparation, propagation, compounding, cultivating, growing, conversion, or processing of a controlled substance, either directly or indirectly, by extraction from substances of natural origin, or independently by means of chemical synthesis, or by a combination of extraction and chemical synthesis, and includes any packaging of the substance or labeling or relabeling of its container, except that this term does not include the preparation, compounding, packaging, or labeling of a controlled substance by:

1. A practitioner or pharmacist as an incident to his or her administering or delivering of a controlled substance in the course of his or her professional practice.

2. A practitioner, or by his or her authorized agent under the practitioner's supervision, for the purpose of, or as an incident to, research, teaching, or chemical analysis, and not for sale.

(b) "Manufacturer" means and includes every person who prepares, derives, produces, compounds, or repackages any drug as defined by the Florida Drug and Cosmetic Act. However, this definition does not apply to manufacturers of patent or proprietary preparations as defined in the Florida Pharmacy Act. Pharmacies, and pharmacists employed thereby, are specifically excluded from this definition.

(16) "Mixture" means any physical combination of two or more substances, including, but not limited to, a blend, an aggregation, a suspension, an emulsion, a solution, or a dosage unit, whether or not such combination can be separated into its components by physical means, whether mechanical or thermal.

(17) "Nitrogen-heterocyclic analog" means an analog of a controlled substance which has a single carbon atom in a cyclic structure of a compound replaced by a nitrogen atom.

(18) "Patient" means an individual to whom a controlled substance is lawfully dispensed or administered pursuant to the provisions of this chapter.

(19) "Pharmacist" means a person who is licensed pursuant to chapter 465 to practice the profession of pharmacy in this state.

(20) "Positional isomer" means any substance that possesses the same molecular formula and core structure and that has the same functional group or substituent as those found in the respective controlled substance, attached at any positions on the core structure, but in such manner that no new chemical functionalities are created and no existing chemical functionalities are destroyed relative to the respective controlled substance. Rearrangements of alkyl moieties within or between functional groups or substituents, or divisions or combinations of alkyl moieties, which do not create new chemical functionalities or destroy existing chemical functionalities, are allowed and include resulting compounds that are positional isomers. As used in this definition, the term "core structure" means the parent molecule that is the common basis for the class that includes, but is not limited to, tryptamine, phenethylamine, or ergoline. Examples of rearrangements resulting in creation or destruction of chemical functionalities, and therefore resulting in compounds that are not positional isomers, include, but are not limited to, ethoxy to alpha-hydroxyethyl, hydroxy and methyl to methoxy, or the repositioning of a phenolic or alcoholic hydroxy group to create a hydroxylamine. Examples of rearrangements resulting in compounds that would be positional isomers, include, but are not limited to, tert-butyl to sec-butyl, methoxy and ethyl to isopropoxy, N,N-diethyl to N-methyl-N-propyl, or alpha-methylamino to N-methylamino.

(21) "Possession" includes temporary possession for the purpose of verification or testing, irrespective of dominion or control.

(22) "Potential for abuse" means that a substance has properties of a central nervous system stimulant or depressant or an hallucinogen that create a substantial likelihood of its being:

- (a) Used in amounts that create a hazard to the user's health or the safety of the community;
- (b) Diverted from legal channels and distributed through illegal channels; or
- (c) Taken on the user's own initiative rather than on the basis of professional medical advice.

Proof of potential for abuse can be based upon a showing that these activities are already taking place, or upon a showing that the nature and properties of the substance make it reasonable to assume that there is a substantial likelihood that such activities will take place, in other than isolated or occasional instances.

(23) “Practitioner” means a physician licensed under chapter 458, a dentist licensed under chapter 466, a veterinarian licensed under chapter 474, an osteopathic physician licensed under chapter 459, an advanced practice registered nurse licensed under chapter 464, a naturopath licensed under chapter 462, a certified optometrist licensed under chapter 463, a psychiatric nurse as defined in s. 394.455, a podiatric physician licensed under chapter 461, or a physician assistant licensed under chapter 458 or chapter 459, provided such practitioner holds a valid federal controlled substance registry number.

(24) “Prescription” includes any order for drugs or medicinal supplies which is written or transmitted by any means of communication by a licensed practitioner authorized by the laws of this state to prescribe such drugs or medicinal supplies, is issued in good faith and in the course of professional practice, is intended to be dispensed by a person authorized by the laws of this state to do so, and meets the requirements of s. 893.04.

(a) The term also includes an order for drugs or medicinal supplies transmitted or written by a physician, dentist, veterinarian, or other practitioner licensed to practice in a state other than Florida, but only if the pharmacist called upon to fill such an order determines, in the exercise of his or her professional judgment, that the order was issued pursuant to a valid patient-physician relationship, that it is authentic, and that the drugs or medicinal supplies ordered are considered necessary for the continuation of treatment of a chronic or recurrent illness.

(b) If the physician writing the prescription is not known to the pharmacist, the pharmacist shall obtain proof to a reasonable certainty of the validity of the prescription.

(c) A prescription for a controlled substance may not be issued on the same prescription blank with another prescription for a controlled substance that is named or described in a different schedule or with another prescription for a medicinal drug, as defined in s. 465.003, that is not a controlled substance.

(25) “Wholesaler” means any person who acts as a jobber, wholesale merchant, or broker, or an agent thereof, who sells or distributes for resale any drug as defined by the Florida Drug and Cosmetic Act. However, this definition does not apply to persons who sell only patent or proprietary preparations as defined in the Florida Pharmacy Act. Pharmacies, and pharmacists employed thereby, are specifically excluded from this definition.

If s. 29, Article X of the State Constitution is amended or a constitutional amendment related to cannabis or marijuana is adopted, this act shall expire 6 months after the effective date of such amendment.” If such amendment or adoption takes place, subsection (3), as amended by s. 1, ch. 2017-232, will read:

(3) “Cannabis” means all parts of any plant of the genus *Cannabis*, whether growing or not; the seeds thereof; the resin extracted from any part of the plant; and every compound, manufacture, salt, derivative, mixture, or preparation of the plant or its seeds or resin. The term does not include “low-THC cannabis,” as defined in s. 381.986, if manufactured, possessed, sold, purchased, delivered, distributed, or dispensed, in conformance with s. 381.986.

893.035 Control of new substances; findings of fact; delegation of authority to Attorney General to control substances by rule.—

(1)(a) New substances are being created which are not controlled under the provisions of this chapter but which have a potential for abuse similar to or greater than that for substances controlled under this chapter. Designer drugs are being manufactured, distributed, possessed, and used as substitutes for controlled substances.

(b) The hazards attributable to the traffic in and use of these designer drugs are increased because their unregulated manufacture produces variations in purity and concentration.

(c) Many such new substances are untested, and it cannot be immediately determined whether they have useful medical or chemical purposes.

(d) The uncontrolled importation, manufacture, distribution, possession, or use of these designer drugs has a substantial and detrimental impact on the health and safety of the people of Florida.

(e) These designer drugs can be created more rapidly than they can be identified and controlled by action of the Legislature. There is a need for a speedy and expert administrative determination of their proper classification under this chapter. It is therefore necessary to delegate to an administrative agency restricted authority to identify and classify new substances that have a potential for abuse, so that they can be controlled in the same manner as other substances currently controlled under this chapter.

(2) The Attorney General shall apply the provisions of this section to any substance not currently controlled under the provisions of s. 893.03. The Attorney General may by rule:

(a) Add a substance to a schedule established by s. 893.03, or transfer a substance between schedules, if he or she finds that it has a potential for abuse and he or she makes with respect to it the other findings appropriate for classification in the particular schedule under s. 893.03 in which it is to be placed.

(b) Remove a substance previously added to a schedule if he or she finds the substance does not meet the requirements for inclusion in that schedule.

Rules adopted under this section shall be made pursuant to the rulemaking procedures prescribed by chapter 120.

(3)(a) The term “potential for abuse” in this section means that a substance has properties as a central nervous system stimulant or depressant or a hallucinogen that create a substantial likelihood of its being:

1. Used in amounts that create a hazard to the user’s health or the safety of the community;
2. Diverted from legal channels and distributed through illegal channels; or
3. Taken on the user’s own initiative rather than on the basis of professional medical advice.

Proof of potential for abuse can be based upon a showing that these activities are already taking place, or upon a showing that the nature and properties of the substance make it reasonable to assume that there is a substantial likelihood that such activities will take place, in other than isolated or occasional instances.

(b) The terms “immediate precursor” and “narcotic drug” shall be given the same meanings as provided by s. 102 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 802, as amended and in effect on April 1, 1985.

(4) In making any findings under this section, the Attorney General shall consider the following factors with respect to each substance proposed to be controlled or removed from control:

- (a) Its actual or relative potential for abuse.
- (b) Scientific evidence of its pharmacological effect, if known.
- (c) The state of current scientific knowledge regarding the drug or other substance.
- (d) Its history and current pattern of abuse.
- (e) The scope, duration, and significance of abuse.
- (f) What, if any, risk there is to the public health.
- (g) Its psychic or physiological dependence liability.
- (h) Whether the substance is an immediate precursor of a substance already controlled under this chapter.

The findings and conclusions of the United States Attorney General or his or her delegee, as set forth in the Federal Register, with respect to any substance pursuant to s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985, shall be admissible as evidence in any rulemaking proceeding under this section, including an emergency rulemaking proceeding under subsection (7).

(5) Before initiating proceedings under subsection (2), the Attorney General shall request from the Department of Health and the Department of Law Enforcement a medical and scientific evaluation of the substance under consideration and a recommendation as to the appropriate classification, if any, of such substance as a controlled substance. In responding to this request, the Department of Health and the Department of Law Enforcement shall consider the factors listed in subsection (4). The Department of Health and the Department of Law Enforcement shall respond to this request promptly and in writing; however, their response is not subject to chapter 120. If both the Department of Health and the Department of Law Enforcement recommend that a substance not be controlled, the Attorney General shall not control that substance. If the Attorney General determines, based on the evaluations and recommendations of the Department of Health and the Department of Law Enforcement and all other available evidence, that there is substantial evidence of potential for abuse, he or she shall initiate proceedings under paragraph (2)(a) with respect to that substance.

(6)(a) The Attorney General shall by rule exempt any nonnarcotic substance controlled by rule under this section from the application of this section if such substance may, under the Federal Food, Drug, and Cosmetic Act, be lawfully sold over the counter without a prescription.

(b) The Attorney General may by rule exempt any compound, mixture, or preparation containing a substance controlled by rule under this section from the application of this section if he or she finds that such compound, mixture, or preparation meets the requirements of either of the following subcategories:

1. A mixture or preparation containing a nonnarcotic substance controlled by rule, which mixture or preparation is approved for prescription use and which contains one or more other active ingredients which are not listed in any schedule and which are included therein in such combinations, quantity, proportion, or concentration as to vitiate the potential for abuse.

2. A compound, mixture, or preparation which contains any substance controlled by rule, which is not for administration to a human being or animal, and which is packaged in such form or concentration, or with adulterants or denaturants, so that as packaged it does not present any significant potential for abuse.

(7)(a) If the Attorney General finds that the scheduling of a substance in Schedule I of s. 893.03 on a temporary basis is necessary to avoid an imminent hazard to the public safety, he or she may by rule and without regard to the requirements of subsection (5) relating to the Department of Health and the Department of Law Enforcement schedule such substance in Schedule I if the substance is not listed in any other schedule of s. 893.03. The Attorney General shall be required to consider, with respect to his or her finding of imminent hazard to the public safety, only those factors set forth in paragraphs (3)(a) and (4)(d), (e), and (f), including actual abuse, diversion from legitimate channels, and clandestine importation, manufacture, or distribution.

(b) The Attorney General may use emergency rulemaking provisions under s. 120.54(4) in scheduling substances under this subsection. Notwithstanding the provisions of s. 120.54(4)(c), any rule adopted under this subsection shall not expire except as provided in subsection (9).

(8)(a) Upon the effective date of a rule adopted pursuant to this section adding or transferring a substance to a schedule under s. 893.03, such substance shall be deemed included in that schedule, and all provisions of this chapter applicable to substances in that schedule shall be deemed applicable to such substance.

(b) A rule adopted pursuant to this section shall continue in effect until it is repealed; until it is declared invalid in proceedings under s. 120.56 or in proceedings before a court of competent jurisdiction; or until it expires under the provisions of subsection (9).

(9) The Attorney General shall report to the Legislature by March 1 of each year concerning the rules adopted under this section during the previous year. Each rule so reported shall expire on the following June 30 unless the Legislature adopts the provisions thereof as an amendment to this chapter.

(10) The repeal, expiration, or determination of invalidity of any rule shall not operate to create any claim or cause of action against any law enforcement officer or other enforcing authority for actions taken in good faith in reliance on the validity of the rule.

(11) In construing this section, due consideration and great weight should be given to interpretations of the United States Attorney General and the federal courts relating to s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985. All substantive rules adopted under this part shall not be inconsistent with the rules of the United States Attorney General and the decisions of the federal courts interpreting the provisions of s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985.

(12) The adoption of a rule transferring a substance from one schedule to another or removing a substance from a schedule pursuant to this section shall not affect prosecution or punishment for any crime previously committed with respect to that substance.

893.0355 Control of scheduled substances; delegation of authority to Attorney General to reschedule substance, or delete substance, by rule.—

(1) The Legislature has determined that, from time to time, additional testings, approvals, or scientific evidence may indicate that controlled substances listed in Schedules I, II, III, IV, and V hereof have a greater potential for beneficial medical use in treatment in the United States than was evident when such substances were initially scheduled. It is the intent of the Legislature to quickly provide a method for an immediate change to the scheduling and control of such substances to allow for the beneficial medical use thereof so that more flexibility will be available than is possible through rescheduling legislatively.

(2) The Attorney General is hereby delegated the authority to adopt rules rescheduling specified substances to a less controlled schedule, or deleting specified substances from a schedule, upon a finding that reduced control of such substances is in the public interest. In determining whether reduced control of a substance is in the public interest, the Attorney General shall consider the following:

(a) Whether the substance has been rescheduled or deleted from any schedule by rule adopted by the United States Attorney General pursuant to s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811.

(b) The substance's actual or relative potential for abuse.

(c) Scientific evidence of the substance's pharmacological effect, if known.

(d) The state of current scientific knowledge regarding the substance.

(e) The substance's history and current pattern of abuse.

(f) The scope, duration, and significance of abuse.

(g) What, if any, risk there is to the public health.

(h) The substance's psychic or physiological dependence liability.

(3) In making the public interest determination, the Attorney General shall give great weight to the scheduling rules adopted by the United States Attorney General subsequent to such substances being listed in Schedules I, II, III, IV, and V hereof, to achieve the original legislative purpose of the Florida Comprehensive Drug Abuse Prevention and Control Act of maintaining uniformity between the laws of Florida and the laws of the United States with respect to controlled substances.

(4) Rulemaking under this section shall be in accordance with the procedural requirements of chapter 120, including the emergency rule provisions found in s. 120.54, except that s. 120.54(7) does not apply.

(5) Upon the effective date of a rule adopted pursuant to this section, the rule's rescheduling or deletion of a substance shall be effective for all purposes under this chapter.

(6) Rules adopted pursuant to this section shall be reviewed each year by the Legislature. Each rule shall remain in effect until the effective date of legislation that provides for a different scheduling of a substance than that set forth in such rule.

(7) The adoption of a rule rescheduling a substance or deleting a substance from control pursuant to this section shall not affect prosecution or punishment for any crime previously committed with respect to that substance.

(8) The provisions of this section apply only to substances controlled expressly by statute and not to substances controlled by rules adopted under the authority granted in the provisions of s. 893.035.

893.0356 Control of new substances; findings of fact; “controlled substance analog” defined.—

(1)(a) New substances are being created which are not controlled under the provisions of this chapter but which have a potential for abuse similar to or greater than that for substances controlled under this chapter. These new substances are called “controlled substance analogs,” and can be designed to produce a desired pharmacological effect and to evade the controlling statutory provisions. Controlled substance analogs are being manufactured, distributed, possessed, and used as substitutes for controlled substances.

(b) The hazards attributable to the traffic in and use of controlled substance analogs are increased because their unregulated manufacture produces variations in purity and concentration.

(c) Many such new substances are untested, and it cannot be immediately determined whether they have useful medical or chemical purposes.

(d) The uncontrolled importation, manufacture, distribution, possession, or use of controlled substance analogs has a substantial and detrimental impact on the health and safety of the people of Florida.

(e) Controlled substance analogs can be created more rapidly than they can be identified and controlled by action of the Legislature. There is a need for a speedy determination of their proper classification under this chapter. It is therefore necessary to identify and classify new substances that have a potential for abuse, so that they can be controlled in the same manner as other substances currently controlled under this chapter.

(2)(a) As used in this section, “controlled substance analog” means a substance which, due to its chemical structure and potential for abuse, meets the following criteria:

1. Is substantially similar to that of a controlled substance listed in Schedule I or Schedule II of s. 893.03; and

2. Has a stimulant, depressant, or hallucinogenic effect on the central nervous system or is represented or intended to have a stimulant, depressant, or hallucinogenic effect on the central nervous system substantially similar to or greater than that of a controlled substance listed in Schedule I or Schedule II of s. 893.03.

(b) "Controlled substance analog" does not include:

1. A controlled substance;
2. Any substance for which there is an approved new drug application;
3. Any compound, mixture, or preparation which contains any controlled substance which is not for administration to a human being or animal, and which is packaged in such form or concentration, or with adulterants or denaturants, so that as packaged it does not present any significant potential for abuse; or
4. Any substance to which an investigational exemption applies under s. 505 of the Food, Drug, and Cosmetic Act, 21 U.S.C. 355, but only to the extent that conduct with respect to the substance is pursuant to such exemption.

(3) As used in this section, the term "substantially similar," as the term applies to the chemical structure of a substance, means that the chemical structure of the substance compared to the structure of a controlled substance has a single difference in the structural formula that substitutes one atom or functional group for another, including, but not limited to, one halogen for another halogen, one hydrogen for a halogen or vice versa, an alkyl group added or deleted as a side chain to or from a molecule, or an alkyl group added or deleted from a side chain of a molecule.

(4) The following factors shall be relevant to a finding that a substance is a controlled substance analog within the purview of this section:

- (a) Its actual or relative potential for abuse.
- (b) Scientific evidence of its pharmacological effect, if known.
- (c) The state of current scientific knowledge regarding the substance.
- (d) Its history and current pattern of abuse.
- (e) The scope, duration, and significance of abuse.
- (f) What, if any, risk there is to the public health.
- (g) Its psychic or physiological dependence liability.
- (h) Its diversion from legitimate channels, and clandestine importation, manufacture, or distribution.
- (i) Whether the substance is an immediate precursor of a substance already controlled under this chapter.
- (j) Comparisons to the accepted methods of marketing, distribution, and sales of the substance and that which the substance is purported to be, including, but not limited to:
 1. The difference in price at which the substance is sold and the price at which the substance it is purported to be or advertised as is normally sold;
 2. The difference in how the substance is imported, manufactured, or distributed compared to how the substance it is purported to be or advertised as is normally imported, manufactured, or distributed;
 3. The difference in the appearance of the substance in overall finished dosage form compared to the substance it is purported to be or advertised as normally appears in overall finished dosage form; and
 4. The difference in how the substance is labeled for sale, packaged for sale, or the method of sale, including, but not limited to, the placement of the substance in an area commonly viewable to the public for purchase consideration compared to how the substance it is purported to be or advertised as is normally labeled for sale, packaged for sale, or sold to the public.

(5) A controlled substance analog shall, for purposes of drug abuse prevention and control, be treated as the highest scheduled controlled substance of which it is a controlled substance analog in s. 893.03.

(6) In construing this section, due consideration and great weight should be given to interpretations of the United States Attorney General and the federal courts relating to s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985. New substances controlled under this section shall not be treated in a manner inconsistent with the rules of the United States Attorney General and the decisions of the federal courts interpreting the provisions of s. 201 of the Comprehensive Drug Abuse Prevention and Control Act of 1970, 21 U.S.C. s. 811, as amended and in effect on April 1, 1985.

(7) The treatment of a new substance as a controlled substance pursuant to this section shall not affect prosecution or punishment for any crime previously committed with respect to that substance.

893.04 Pharmacist and practitioner.—

(1) A pharmacist, in good faith and in the course of professional practice only, may dispense controlled substances upon a written, oral, or electronic prescription of a practitioner, under the following conditions:

(a) Oral prescriptions must be promptly reduced to writing by the pharmacist or recorded electronically if permitted by federal law.

(b) The written prescription must be dated and signed by the prescribing practitioner on the day when issued.

(c) There shall appear on the face of the prescription or written record thereof for the controlled substance the following information:

1. The full name and address of the person for whom, or the owner of the animal for which, the controlled substance is dispensed.

2. The full name and address of the prescribing practitioner and the practitioner's federal controlled substance registry number shall be printed thereon.

3. If the prescription is for an animal, the species of animal for which the controlled substance is prescribed.

4. The name of the controlled substance prescribed and the strength, quantity, and directions for use thereof.

5. The number of the prescription, as recorded in the prescription files of the pharmacy in which it is filled.

6. The initials of the pharmacist filling the prescription and the date filled.

(d) The prescription shall be retained on file by the proprietor of the pharmacy in which it is filled for a period of 2 years.

(e) Affixed to the original container in which a controlled substance is delivered upon a prescription or authorized refill thereof, as hereinafter provided, there shall be a label bearing the following information:

1. The name and address of the pharmacy from which such controlled substance was dispensed.

2. The date on which the prescription for such controlled substance was filled.

3. The number of such prescription, as recorded in the prescription files of the pharmacy in which it is filled.

4. The name of the prescribing practitioner.

5. The name of the patient for whom, or of the owner and species of the animal for which, the controlled substance is prescribed.

6. The directions for the use of the controlled substance prescribed in the prescription.

7. A clear, concise warning that it is a crime to transfer the controlled substance to any person other than the patient for whom prescribed.

(f) A prescription for a controlled substance listed in Schedule II may be dispensed only upon a written or electronic prescription of a practitioner, except that in an emergency situation, as defined by regulation of the Department of Health, such controlled substance may be dispensed upon oral prescription but is limited to a 72-hour supply. A prescription for a controlled substance listed in Schedule II may not be refilled.

(g) A prescription for a controlled substance listed in Schedule III, Schedule IV, or Schedule V may not be filled or refilled more than five times within a period of 6 months after the date on which the prescription was written unless the prescription is renewed by a practitioner.

(2)(a) A pharmacist may not dispense a controlled substance listed in Schedule II, Schedule III, or Schedule IV to any patient or patient's agent without first determining, in the exercise of her or his professional judgment, that the prescription is valid. The pharmacist may dispense the controlled substance, in the exercise of her or his professional judgment, when the pharmacist or pharmacist's agent has obtained satisfactory patient information from the patient or the patient's agent.

(b) Any pharmacist who dispenses by mail a controlled substance listed in Schedule II, Schedule III, or Schedule IV is exempt from the requirement to obtain suitable identification for the prescription dispensed by mail if the pharmacist has obtained the patient's identification through the patient's prescription benefit plan.

(c) Any controlled substance listed in Schedule III or Schedule IV may be dispensed by a pharmacist upon an oral prescription if, before filling the prescription, the pharmacist reduces it to writing or records the prescription electronically if permitted by federal law. Such prescriptions must contain the date of the oral authorization.

(d) Each prescription written by a practitioner in this state for a controlled substance listed in Schedule II, Schedule III, or Schedule IV must include a written and a numerical notation of the quantity of the controlled substance prescribed and a notation of the date in numerical, month/day/year format, or with the abbreviated month written out, or the month written out in whole. A pharmacist may, upon verification by the prescriber, document any information required by this paragraph. If the prescriber is not available to verify a prescription, the pharmacist may dispense the controlled substance, but may insist that the person to whom the controlled substance is dispensed provide valid photographic identification. If a prescription includes a numerical notation of the quantity of the controlled substance or date, but does not include the quantity or date written out in textual format, the pharmacist may dispense the controlled substance without verification by the prescriber of the quantity or date if the pharmacy previously dispensed another prescription for the person to whom the prescription was written.

(e) A pharmacist may not dispense more than a 30-day supply of a controlled substance listed in Schedule III upon an oral prescription issued in this state.

(f) A pharmacist may not knowingly dispense a prescription that has been forged for a controlled substance listed in Schedule II, Schedule III, or Schedule IV.

(3) Notwithstanding subsection (1), a pharmacist may dispense a one-time emergency refill of up to a 72-hour supply of the prescribed medication for any medicinal drug other than a medicinal drug listed in Schedule II, or emergency refill of insulin and insulin-related supplies or equipment to treat diabetes mellitus, not to exceed 3 nonconsecutive times per calendar year, in compliance with s. 465.0275.

(4) The legal owner of any stock of controlled substances in a pharmacy, upon discontinuance of dealing in controlled substances, may sell said stock to a manufacturer, wholesaler, or pharmacy. Such controlled substances may be sold only upon an order form, when such an order form is required for sale by the drug abuse laws of the United States or this state, or regulations pursuant thereto.

893.05 Practitioners and persons administering controlled substances in their absence.—

(1)(a) A practitioner, in good faith and in the course of his or her professional practice only, may prescribe, administer, dispense, mix, or otherwise prepare a controlled substance, or the practitioner may cause the controlled substance to be administered by a licensed nurse or an intern practitioner under his or her direction and supervision only.

(b) Pursuant to s. 458.347(4)(g), s. 459.022(4)(f), or s. 464.012(3), as applicable, a practitioner who supervises a licensed physician assistant or advanced practice registered nurse may authorize the licensed physician assistant or advanced practice registered nurse to order controlled substances for administration to a patient in a facility licensed under chapter 395 or part II of chapter 400.

(c) A veterinarian may prescribe, administer, dispense, mix, or prepare a controlled substance for use on animals only, and may cause the controlled substance to be administered by an assistant or orderly under the veterinarian's direction and supervision only.

(d) A certified optometrist licensed under chapter 463 may not administer or prescribe a controlled substance listed in Schedule I or Schedule II of s. 893.03.

(2) When any controlled substance is dispensed by a practitioner, there shall be affixed to the original container in which the controlled substance is delivered a label on which appears:

- (a) The date of delivery.
- (b) The directions for use of such controlled substance.
- (c) The name and address of such practitioner.

(d) The name of the patient and, if such controlled substance is prescribed for an animal, a statement describing the species of the animal.

(e) A clear, concise warning that it is a crime to transfer the controlled substance to any person other than the patient for whom prescribed.

(3) Any person who obtains from a practitioner or the practitioner's agent, or pursuant to prescription, any controlled substance for administration to a patient during the absence of such practitioner shall return to such practitioner any unused portion of such controlled substance when it is no longer required by the patient.

(b) The department may collaborate with professional health care regulatory boards, appropriate organizations, and other state agencies to identify indicators of controlled substance abuse.

(3)(a) For each controlled substance dispensed to a patient in this state, the following information must be reported by the dispenser to the system as soon thereafter as possible but no later than the close of the next business day after the day the controlled substance is dispensed unless an extension or exemption is approved by the department:

1. The name of the prescribing practitioner, the practitioner's federal Drug Enforcement Administration registration number, the practitioner's National Provider Identification or other appropriate identifier, and the date of the prescription.

(2) Any agency authorized to enforce this chapter shall have the right to institute an action in its own name to enjoin the violation of any of the provisions of this chapter. Said action for an injunction shall be in addition to any other action, proceeding, or remedy authorized by law.

(3) All law enforcement officers whose duty it is to enforce this chapter shall have authority to administer oaths in connection with their official duties, and any person making a material false statement under oath before such law enforcement officers shall be deemed guilty of perjury and subject to the same punishment as prescribed for perjury.

(4) It shall be unlawful and punishable as provided in chapter 843 for any person to interfere with any such law enforcement officer in the performance of the officer's official duties. It shall also be unlawful for any person falsely to represent himself or herself to be authorized to enforce the drug abuse laws of this state, the United States, or any other state.

(5) No civil or criminal liability shall be imposed by virtue of this chapter upon any person whose duty it is to enforce the provisions of this chapter, by reason of his or her being lawfully engaged in the enforcement of any law or municipal ordinance relating to controlled substances.

History.—s. 9, ch. 73-331; s. 1, ch. 77-174; s. 30, ch. 79-8; s. 1441, ch. 97-102.

893.10 Burden of proof; photograph or video recording of evidence.—

(1) It is not necessary for the state to negative any exemption or exception set forth in this chapter in any indictment, information, or other pleading or in any trial, hearing, or other proceeding under this chapter, and the burden of going forward with the evidence with respect to any exemption or exception is upon the person claiming its benefit.

(2) In the prosecution of an offense involving the manufacture of a controlled substance, a photograph or video recording of the manufacturing equipment used in committing the offense, including, but not limited to, grow lights, growing trays, and chemical fertilizers, may be introduced as competent evidence of the existence and use of the equipment and is admissible in the prosecution of the offense to the same extent as if the property were introduced as evidence.

(3) After a law enforcement agency documents the manufacturing equipment by photography or video recording, the manufacturing equipment may be destroyed on site and left in disrepair. The law enforcement agency destroying the equipment is immune from civil liability for the destruction of the equipment. The destruction of the equipment must be recorded by the supervising law enforcement officer in the manner described in s. 893.12(1)(a), and records must be maintained for 24 months.

History.—s. 10, ch. 73-331; s. 1442, ch. 97-102; s. 3, ch. 2008-184; s. 19, ch. 2010-117.

893.101 Legislative findings and intent.—

(1) The Legislature finds that the cases of *Scott v. State*, Slip Opinion No. SC94701 (Fla. 2002) and *Chicone v. State*, 684 So. 2d 736 (Fla. 1996), holding that the state must prove that the defendant knew of the illicit nature of a controlled substance found in his or her actual or constructive possession, were contrary to legislative intent.

(2) The Legislature finds that knowledge of the illicit nature of a controlled substance is not an element of any offense under this chapter. Lack of knowledge of the illicit nature of a controlled substance is an affirmative defense to the offenses of this chapter.

(3) In those instances in which a defendant asserts the affirmative defense described in this section, the possession of a controlled substance, whether actual or constructive, shall give rise to a permissive presumption that the possessor knew of the illicit nature of the substance. It is the intent of the Legislature that, in those cases where such an affirmative defense is raised, the jury shall be instructed on the permissive presumption provided in this subsection.

History.—s. 1, ch. 2002-258.

893.105 Testing and destruction of seized substances.—

(1) Any controlled substance or listed chemical seized as evidence may be sample tested and weighed by the seizing agency after the seizure. Any such sample and the analysis thereof shall be admissible into evidence in any civil or criminal action for the purpose of proving the nature, composition, and weight of the substance seized. In addition, the seizing agency may photograph or videotape, for use at trial, the controlled substance or listed chemical seized.

(2) Controlled substances or listed chemicals that are not retained for sample testing as provided in subsection (1) may be destroyed pursuant to a court order issued in accordance with s. 893.12.

893.11 Suspension, revocation, and reinstatement of business and professional licenses.—For the purposes of s. 120.60(6), any conviction in any court reported to the Comprehensive Case Information System of the Florida Association of Court Clerks and Comptrollers, Inc., for the sale of, or trafficking in, a controlled substance or for conspiracy to sell, or traffic in, a controlled substance constitutes an immediate serious danger to the public health, safety, or welfare, and is grounds for disciplinary action by the licensing state agency. A state agency shall initiate an immediate emergency suspension of an individual professional license issued by the agency, in compliance with the procedures for summary suspensions in s. 120.60(6), upon the agency's findings of the licensee's conviction in any court reported to the Comprehensive Case Information System of the Florida

Association of Court Clerks and Comptrollers, Inc., for the sale of, or trafficking in, a controlled substance, or for conspiracy to sell, or traffic in, a controlled substance. Before renewing any professional license, a state agency that issues a professional license must use the Comprehensive Case Information System of the Florida Association of Court Clerks and Comptrollers, Inc., to obtain information relating to any conviction for the sale of, or trafficking in, a controlled substance or for conspiracy to sell, or traffic in, a controlled substance. The clerk of court shall provide electronic access to each state agency at no cost and also provide certified copies of the judgment upon request to the agency. Upon a showing by any such convicted defendant whose professional license has been suspended or revoked pursuant to this section that his or her civil rights have been restored or upon a showing that the convicted defendant meets the following criteria, the agency head may reinstate or reactivate such license when:

(1) The person has complied with the conditions of paragraphs (a) and (b) which shall be monitored by the Department of Corrections while the person is under any supervisory sanction. If the person fails to comply with provisions of these paragraphs by either failing to maintain treatment or by testing positive for drug use, the department shall notify the licensing agency, which shall revoke the license. The person under supervision may:

(a) Seek evaluation and enrollment in, and once enrolled maintain enrollment in until completion, a drug treatment and rehabilitation program which is approved or regulated by the Department of Children and Families. The treatment and rehabilitation program shall be specified by:

1. The court, in the case of court-ordered supervisory sanctions;
2. The Florida Commission on Offender Review, in the case of parole, control release, or conditional release; or
3. The Department of Corrections, in the case of imprisonment or any other supervision required by law.

(b) Submit to periodic urine drug testing pursuant to procedures prescribed by the Department of Corrections. If the person is indigent, the costs shall be paid by the Department of Corrections; or

(2) The person has successfully completed an appropriate program under the Correctional Education Program.

(3) As used in this section, the term “professional license” includes any license, permit, or certificate that authorizes a person to practice his or her profession. However, the term does not include any of the taxes, fees, or permits regulated, controlled, or administered by the Department of Revenue in accordance with s. 213.05.

(a) Except as in this section otherwise provided, the court having jurisdiction shall order such controlled substances or listed chemicals forfeited and destroyed. A record of the place where said controlled substances or listed chemicals were seized, of the kinds and quantities of controlled substances or listed chemicals destroyed, and of the time, place, and manner of destruction shall be kept, and a return under oath reporting said destruction shall be made to the court by the officer who destroys them.

(b) All real property, including any right, title, leasehold interest, and other interest in the whole of any lot or tract of land and any appurtenances or improvements, which real property is used, or intended to be used, in any manner or part, to commit or to facilitate the commission of, or which real property is acquired with proceeds obtained as a result of, a violation of any provision of this chapter related to a controlled substance described in s. 893.03(1) or (2) may be seized and forfeited as provided by the Florida Contraband Forfeiture Act except that no property shall be forfeited under this paragraph to the extent of an interest of an owner or lienholder by reason of any act or omission established by that owner or lienholder to have been committed or omitted without the knowledge or consent of that owner or lienholder.

(c) All moneys, negotiable instruments, securities, and other things of value furnished or intended to be furnished by any person in exchange for a controlled substance described in s. 893.03(1) or (2) or a listed chemical in violation of any provision of this chapter, all proceeds traceable to such an exchange, and all moneys, negotiable instruments, and securities used or intended to be used to facilitate any violation of any provision of this chapter or which are acquired with proceeds obtained in violation of any provision of this chapter may be seized and forfeited as provided by the Florida Contraband Forfeiture Act, except that no property shall be forfeited under this paragraph to the extent of an interest of an owner or lienholder by reason of any act or omission established by that owner or lienholder to have been committed or omitted without the knowledge or consent of that owner or lienholder.

the court shall order the forfeiture of any other property of the defendant up to the value of any property subject to forfeiture under this subsection.

(3) Any law enforcement agency is empowered to authorize or designate officers, agents, or other persons to carry out the seizure provisions of this section. It shall be the duty of any officer, agent, or other person so authorized or designated, or authorized by law, whenever she or he shall discover any vessel, vehicle, aircraft, real property or interest in real property, money, negotiable instrument, security, book, record, or research which has been or is being used or intended to be used, or which is acquired with proceeds obtained, in violation of any of the provisions of this chapter, or in, upon, or by means of which any violation of this chapter has taken or is taking place, to seize such vessel, vehicle, aircraft, real property or interest in real property, money, negotiable

instrument, security, book, record, or research and place it in the custody of such person as may be authorized or designated for that purpose by the respective law enforcement agency pursuant to these provisions.

(4) The rights of any bona fide holder of a duly recorded mortgage or duly recorded vendor's privilege on the property seized under this chapter shall not be affected by the seizure.

8. Withhold information from a practitioner from whom the person seeks to obtain a controlled substance or a prescription for a controlled substance that the person making the request has received a controlled substance or a prescription for a controlled substance of like therapeutic use from another practitioner within the previous 30 days.

For purposes of this subparagraph, a material fact includes whether the person has an existing prescription for a controlled substance issued for the same period of time by another practitioner or as described in subparagraph 8.

(b) A health care practitioner, with the intent to provide a controlled substance or combination of controlled substances that are not medically necessary to his or her patient or an amount of controlled substances that is not medically necessary for his or her patient, may not provide a controlled substance or a prescription for a controlled substance by misrepresentation, fraud, forgery, deception, subterfuge, or concealment of a material fact. 4. Write a prescription for a controlled substance for a patient, other person, or an animal if the sole purpose of writing such prescription is to provide a monetary benefit to, or obtain a monetary benefit for, the prescribing practitioner.

(b) If the prescribing practitioner wrote a prescription or multiple prescriptions for a controlled substance for the patient, other person, or animal for which there was no medical necessity, or which was in excess of what was medically necessary to treat the patient, other person, or animal, that fact does not give rise to any presumption that the prescribing practitioner violated subparagraph (a)1., but may be considered with other competent evidence in determining whether the prescribing practitioner knowingly assisted a patient, other person, or the owner of an animal to obtain a controlled substance in violation of subparagraph (a)1.

(c) A person who violates paragraph (a) commits a felony of the third degree, punishable as provided in s. 775.082, s. 775.083, or s. 775.084.

(1) Except as authorized in this chapter or in chapter 499 and notwithstanding the provisions of s. 893.13:

(a) Any person who knowingly sells, purchases, manufactures, delivers, or brings into this state, or who is knowingly in actual or constructive possession of, in excess of 25 pounds of cannabis, or 300 or more cannabis plants, commits a felony of the first degree, which felony shall be known as “trafficking in cannabis,” punishable as provided in s. 775.082, s. 775.083, or s. 775.084. If the quantity of cannabis involved:

1. Is in excess of 25 pounds, but less than 2,000 pounds, or is 300 or more cannabis plants, but not more than 2,000 cannabis plants, such person shall be sentenced to a mandatory minimum term of imprisonment of 3 years, and the defendant shall be ordered to pay a fine of \$25,000.

To determine if a piece or part of a cannabis plant severed from the cannabis plant is itself a cannabis plant, the severed piece or part must have some readily observable evidence of root formation, such as root hairs. Callous tissue is not readily observable evidence of root formation. The viability and sex of a plant and the fact that the plant may or may not be a dead harvested plant are not relevant in determining if the plant is a “cannabis plant” or in the charging of an offense under this paragraph. Upon conviction, the court shall impose the longest term of imprisonment provided for in this paragraph.

(b)1. Any person who knowingly sells, purchases, manufactures, delivers, or brings into this state, or who is knowingly in actual or constructive possession of, 28 grams or more of cocaine, as described in s. 893.03(2)(a)4., or of any mixture containing cocaine, but less than 150 kilograms of cocaine or any such mixture, commits a felony of the first degree, which felony shall be known as “trafficking in cocaine,” punishable as provided in s. 775.082, s. 775.083, or s. 775.084. A person who has been convicted of the first degree felony of trafficking in cocaine under this subparagraph shall be punished by life imprisonment and is ineligible for

any form of discretionary early release except pardon or executive clemency or conditional medical release under s. 947.149. However, if the court determines that, in addition to committing any act specified in this paragraph:

- a. The person intentionally killed an individual or counseled, commanded, induced, procured, or caused the intentional killing of an individual and such killing was the result; or

- b. Is 50 grams or more, but less than 100 grams, such person shall be sentenced to a mandatory minimum term of imprisonment of 7 years and shall be ordered to pay a fine of \$100,000.
